

## 16th Creative Paradigm 2025

Students of kg-grade 5 celebrated the creativity, curiosity, and commitment across a range of enriching themes on the Project Day, held on 2<sup>nd</sup> August, 2025.

From the mysteries of the Solar System to the interconnected wonders of life on Earth, students displayed an impressive depth of knowledge and imagination. Students of kg, grades 1 and 2 exhibited their learning and projects in a fun filled manner through acts, music and drama.

The models, interactive exhibits, and live demonstrations of young learners from Grades 3, highlighted essential concepts such as health and fitness, highlighting the importance of physical well-being in daily life. The corridors echoed with the rhythm of global harmony as Grade 4 students explored art and cultures around the world, showcasing music, traditions, and craftsmanship from various continents.

Meanwhile, exhibits on patterns in nature by Grade 5—from spirals in galaxies to symmetry in leaves—encouraged us all to pause and appreciate the intricate beauty of our natural world.

The success of this Project Day was a testament to the collaborative effort of students, teachers, and parents. It not only promoted experiential learning but also deepened our understanding of the world through scientific inquiry, cultural appreciation, and sustainable thinking.

Let us continue to learn, question, and grow—today and every day.

Students from Grades 6 to 12 brought learning to life through stunning displays of creativity and critical thinking. From interactive models reflecting technological evolution to innovative apps and tech-driven solutions for modern-day challenges, every project spoke volumes about the dedication, collaboration, and clarity of concept behind it.

Visitors were impressed not only by the hands-on working models but also by the way students confidently explained their research, ideas, and processes. Whether showcasing the transformation of civilizations or presenting sustainable, tech-enabled business ideas, the learners demonstrated an exceptional blend of historical insight and futuristic vision.

A big thank you to our parent community for their enthusiastic participation and heartfelt appreciation. Your encouraging presence added to the joy and pride of the day!

Kudos to all students and teachers for making this exhibition a vibrant, thoughtful, and impactful experience!
